Terry, to make up for wire transfers short of the \$1,500,000 peso amount between April-July 2011, **you should give Charris' wife about \$352,350.00 pesos or \$198.00 USD** according to today's rate on the currency website "xe.com."

Their next scheduled wire is for this Friday, August 5<sup>th</sup>, for \$1,500,000 pesos (\$850USD). The wire gets sent to Yina, and she deposits it in their account. I imagine she will make the deposit on Monday or Tuesday (August 8 or 9).

Separately, we owe Francisco's office \$447,100 pesos (about \$252USD on xe.com) for the times his office made up the difference from 2010 & 2011 wires.
